Quality

Our Company is driven by quality. All the items we use go through many quality checks before they are utilized on an aircraft.

All spares supplied by Aero Technics have full traceability and are supplied with either FAA Form 8130-3 and/or EASA Form One release certification. We work to ISO 9001:2000 and AS9120 standards and are due to obtain creditation soon.

Aero Technics are dedicated to ensuring Quality is maintained to the very highest standard. Our Director of Quality, Rob Petts, has in excess of 25 years experience, and vigorously maintains our EASA Part 145 and EASA Part 21 standards.

Aero Technics are members of the European Aviation Suppliers Organisation.

- EASA Part 145
- EASA Part 21 Design Organisation Approval (DOA)
